WHO WE ARE?

IT Company has been around since 2007 as technology solution experts, providing IT Services and Solutions for businesses. We have the power and audacity to think different and find solutions to a diverse range of customer's requirements. Being a Microsoft certified partner, Google and Telstra reseller, IT Company has a higher level of expertise in providing contemporary IT solutions according to your growing company's unique needs. We have the perfect solutions and combination of strategy, planning, customisation, implementation & deployment backed by comprehensive support. IT Company provides you 360 approach to help you build stronger and more meaningful customer relationships.

Business Automation

Automation is an efficient way to increase your business productivity and to eliminate manual errors and paper based systems. We provide a powerful IT solution that turns manual jobs of any type into an automatic system to save time, cost and to attract more customers with lesser resources. Automation empowers you to pre-set tasks to take action on time such as generate overdue invoices, reminders, order processing and much more depending on what your business needs.

Apps Development

Take your business to a whole new level with our apps development team, highly skilled in Mobile Apps, Website and desktop software development, and a variety of programming services such as XML, JSON API, SQL, JAVA, .Net, VB and much more. We have a pool of highly talented individuals with years of experience in customized applications development across Windows 8, iPhone, Cloud and Network Based Platforms.

Point Of Sale

POSCP is giving you more power and lets you streamline your business whether you're running single store or planning to run online franchise network. You can manage your sales, stock, customers and much more in a store or cloud. POSCP.COM is the most user-friendly smart & reliable system which runs on Windows Desktop, iPhone, iPad, Android, Website or any other device. It is developed by our team hence can be customized according to your business needs.

SMS Gateway

Send unlimited SMS and reach anyone, anytime, anywhere with your own SMS Gateway service that connects you with your customers & staff regardless of their type of mobile phones. We are Australia's leading SMS gateway service provider with advanced and reliable SMS application services. SMS Gateway is deployed in your network and lets you send unlimited text messages via email, API or web interface.
